

## CLAIMS

1. A top coating composition which comprises  
 a coating film-forming resin (I);  
 5 as well as a silicate compound (II) besides a hydrolyzable  
 silyl-containing resin (III)  
 and/or a silicate-grafted resin (IV) resulting from graft  
 polymerization of a silicate compound (II) onto a hydrolyzable  
 silyl-containing resin (III).

10 2. The top coating composition according to Claim 1,  
 wherein said silicate compound (II) is a modified  
 silicate compound represented by the general formula (1):

15 in the formula, n represents an integer of 1 to 30; at least  
 one of the R<sup>1</sup> groups is an organic group represented by  
 R<sup>2</sup>-(O-CH<sub>2</sub>-CHR<sup>3</sup>)<sub>m</sub>-, where R<sup>2</sup> is an alkyl group containing 1 to 8  
 carbon atoms, a phenyl group or a benzyl group, R<sup>3</sup> is a hydrogen  
 20 atom or a methyl group and m is an integer of 1 to 4, and the  
 remaining R<sup>1</sup> groups each is a methyl or ethyl group.

3. The top coating composition according to Claim 1,  
 wherein said hydrolysable silyl-containing resin (III)  
 25 is an acrylic resin obtainable by radical polymerization of  
 a silanol- and/or hydrolysable silyl-containing, radical-  
 polymerizable monomer (III-a), a hydroxyl-containing,  
 radical-polymerizable monomer (III-b) and another radical-  
 30 polymerizable monomer (III-c).

4. The top coating composition according to Claim

1,

wherein said coating film-forming resin (I) comprises a hydroxyl-containing resin and a polyisocyanate compound.

5. The top coating composition according to claim

2,

wherein said hydrolysable silyl-containing resin (III) is an acrylic resin obtainable by radical polymerization of a silanol- and/or hydrolysable silyl-containing, radical-polymerizable monomer (III-a), a hydroxyl-containing, radical-polymerizable monomer (III-b) and another radical-polymerizable monomer (III-c).

6. The top coating composition according to claim

2,

wherein said coating film-forming resin (I) comprises a hydroxyl-containing resin and a polyisocyanate compound.

7. The top coating composition according to claim

3,

wherein said coating film-forming resin (I) comprises a hydroxyl-containing resin and a polyisocyanate compound.
